Environmental Policy

Paramount Panels (UK) is a company, situated in Enfield Middlesex, manufacturing panels, knobs and lighting equipment for aircraft, tanks and other vehicles. The panels and other components are produced to strict specifications and high-quality standards.

Paramount Panels (UK) acknowledges its duty to minimise the effect its operations have on the environment and aims to achieve this by striving for continuous improvement in environmental performance. Paramount Panels (UK) endeavours, to the best of its ability, to ensure that all working procedures are carried out in line with current environmental legislation and approved codes of practice.

Paramount Panels (UK) will implement this policy by establishing clear environmental objectives and goals and through the involvement of all employees. This policy will be published and will be made available to the public and to our customers on request.

Paramount Panels (UK) will to strive to integrate environmental issues and objectives into relevant business decisions on a cost-efficient basis:

- Minimise wastage of resources.
- Maximise the available resources by re-using and recycling whenever possible.
- Monitor procedures and working practices and take swift and appropriate actions to remedy deficiencies.
- Promote energy efficiency by encouraging employees to switch off equipment when not in use.
- Prevent pollution wherever possible, through filters and compliance with hazardous waste regulations.
- Provide environmental training and ensure that all staff are aware of their duties in relation to this policy.
- Comply, where possible, with all relevant environmental standards, procedures and regulations.
- Be alert to, and take pre-emptive action to comply with, future legislation.
- Provide channels for employees and customers to be consulted on environmental issues.
- Work continuously to improve the effectiveness of our environmental policy.

To attain these goals the management of Paramount Panels (UK) will identify annual goals, responsibilities and resources for the implementation of this policy.

Paramount Panels (UK) will endeavour to:

- Minimise waste removal costs by reusing or recycling paper and card.
- Reduce energy wastage by replacing old and malfunctioning equipment with newer, more energy efficient replacements.
- Improve lighting and heating efficiency by better positioning of heaters and lighting and by improved staff consultation and training to reduce energy consumption.
- Investigate more environmentally friendly forms of packaging, especially those that are easily re-used or recycled.

The company management and employees consider they are responsible for, committed to and involved in all efforts to ensure the success of this policy.
