PPUK RoHS 3 Compliance Statement

All items or panels manufactured by Paramount Panels UK under the RoHS directive 2015/863/EU published in 2015 which covers all Avionic Panels and accessories used in commercial, defence and aerospace industries. We can confirm that all items purchased from our Service Providers contain Certificate of Conformities to state they are RoHS compliant.

As a company we frequently check with the ECHA website for the full list of substance that may have recently been added to the list to ensure compliance. This list is also carried over to the RoHS regulations.

Under our obligation to ISO 9001:2015 we have taken the action to cascade the REACH / RoHS information and links to all our Service Providers for their information and agreed commitment to the regulations. This also ensures compliance to ensure our Customers do not suffer any unnecessary delays in their business.

Paramount Panels UK will continue to comply with RoHS requirements and notify customers of any change in directive article content.
