PPUK REACH Compliance Declaration

Under the definition of the REACH Regulations EC 1907/2006 Paramount Panels UK is a manufacturer of Avionic Panels and accessories used in commercial, defence and aerospace industries. If any of our products contain any Substances listed in the ECHA Candidate List of Substances of Very High Concern, we endeavour to look for an alternative to remain compliant to the regulations. None of our product contains any SVHC with more than 0.1% by weight.

The EU announced that the Article 33 REACH-Regulation was updated in February 2026 an updated candidate list of the 253 substances which can be found here:

candidate list

As a company we frequently check with the ECHA website for the full list of substance that may have recently been added to the list to ensure compliance.

We have also taken action to cascade the REACH information and links to all our suppliers and requested they also check for substances of Very High Concern, whereby they are requested to notify us immediately. This also ensures compliance to ensure our customers do not suffer any delays in their business.

Paramount Panels UK will continue to comply with REACH requirements and notify customers of any change in article content.
